Data Analytics Across Disciplines

SAS University Edition Workshop

**Trainer:** Tom Bohannon (SAS, Cary NC)

**Location:** Buffalo State, Butler library Room 318

**Time:** Saturday April 11, 10AM to 1PM.

**Abstract:** SAS University Edition *isn’t* a watered-down version of our software. You get the most recent releases of SAS Studio, Base SAS, SAS/STAT, SAS/IML and SAS/ACCESS. It's the same world-class analytics software used by more than 75,000 business, government and university sites around the world, including 93 of the top 100 companies on the Fortune Global 500® list. That means you'll be using the most up-to-date statistical and quantitative methods whenever and wherever – right on your PC, Mac or Linux workstation.

The hands-on workshop will allow participates to experience the various features of this software:

- **An intuitive interface** that lets you interact with the software from your PC, Mac or Linux workstation. Learn more about SAS Studio.
- **A powerful programming language** that’s easy to learn, easy to use. Learn more about Base SAS.
- **Comprehensive, reliable tools** that include state-of-the-art statistical methods. Learn more about SAS/STAT.
- **A robust, yet flexible matrix programming language** for more in-depth, specialized analysis and exploration. Learn more about SAS/IML.

**Registration:** Email name and if a parking permit is required, a mailing address to carbonjo@buffalostate.edu.
